

Alpina XIMO Bike Helmet firefighter

Product price:

29,95 € tax included

Product attributes:

Helmet size: 45 - 49 cm, 47 - 51 cm, 49 - 54 cm

Helmet Color: rot

Helmets: Youth

Product description:

Alpina XIMO Bike Helmet

Best possible protection for the smallest heads: that's what the Ximo Flash from Alpina provides. The children's helmet provides a multitude of detailed solutions, all geared towards one goal: maximum safety with maximum comfort. For a perfect fit, the Run System Classic Slide, which can be adapted to the head in three dimensions, ensures a high degree of comfort and protection. The low weight is due to the inmold production where the upper shell is thermally connected with the Hi-EPS. This results in a solid surface connection, which is responsible for a very sturdy design. In addition, the edges are finished with the polycarbonate Edge Protect shell. The outer shell is designed with exclusive designs - just like the removable, washable inner padding. The air vents are strategically positioned to keep the sun's rays away from the head while simultaneously ensuring excellent ventilation. The rear of the bicycle helmet is designed to be flat, increasing comfort when sitting in the child seat or trailer. The Multi-Fit Light, which can be retrofitted, ensures high visibility at dusk or at night.

Reflectors Reflective elements ensure increased visibility at dusk or at night **Fly net** Mesh in the front ventilation openings keep insects away from your head **Ceramic Shell** Durable outer shell thanks to the 3 shell construction **Ergomatic** Easy-to-operate belt buckle with twist-proof, multi-stage automatic lock **Hi-EPS** Optimum impact absorption thanks to Hi-EPS material made from microscopic little air chambers **Inmold** Low weight thanks to the inmold production where the upper shell is thermally connected with the Hi-EPS **Y-Clip** Adjustable straps by ears **Airflow Venting** Strategically arranged ventilation openings guarantee ideal air flow in the interior **Run System Classic Slide** The Run System Classic Slide allows for a three-dimensional adjustment to your head
