Product description:

Deuter Race Lite Backpack

If you are looking for a pack even more lightweight than the Race, the Race Lite is exactly what you are looking for! With less features the Race Lite offers a weight of only 430 grams and still enough space for the most important gear on your tour.

Deuter Airstripes System Bike

1. **3D AirMesh lined shoulder straps.** Anatomically formed, they guarantee comfortable movement range. The chest strap further secures the fit.
2. **Breathable Mesh wings** on the hip belt stabilize the load.
3. **Two contour-shaped layers** of knobby foam with AirMesh lining and minimal back contact provide maximum airflow.
4. **Flexible aluminium stays** within the foam profile can be bent to fit the back exactly. (Bike I, Superbike and Trans Alpine).
5. **Two contour-shaped** layers of knobby foam with AirMesh lining and minimal back contact provide maximum airflow.
