Product description:

CUBE Shoes ATX OX
olive ´n´cherry tomatoProduct details

The Camino de Santiago by bike was an unforgettable experience. Sheer freedom on two wheels, away from the stresses of everyday life and with just the bare essentials on my back. Finding the right shoe for this adventure called for one thing above all: versatility. That's exactly what the ATX OX offers. It works perfectly on the bike yet looks great on everything from a museum stop-off to the tapas bar. And now whenever I wear the OX it always brings back fantastic memories of my trip.
