Material: EPS In-Mould
Helmets: Youth

Product description:

It's normally not that easy to convince mom and dad to buy me sportswear. When I told them that I also would like to have a bike helmet with a tail light, just like Max from 2b, they bought it for me immediately. They are glad that I always put it on due to "safety and protection in road traffic" and I think it's great how cool I look with it.
