Cube Aim SL Allroad black´n´silver 2019

Performance and practicality don't have to be mutually exclusive. With our Aim SL Allroad we took all the good things about our range-topping, affordable hardtail - great handling, a 9 speed Shimano transmission and comfortable suspension fork - and added mudguards, a luggage carrier, CUBE kickstand and an integrated lighting system. Newly redesigned rack and mudguard mounting points mean that these practical, essential accessories integrate seamlessly into the frame's svelte looks, making it perfectly suited to the urban jungle. The easily configurable suspension fork, powerful hydraulic disc brakes and dynamo-powered lights add up to a bike that'll take on any challenge, on road or off. And our Size Split system means there's the perfect frame and wheel combination for you, whatever your size and shape.

Keen riders want a bike that'll respond quickly, safely and intuitively. That's why our engineers designed complex profile top and down tubes, made using our Advanced Mechanical Forming process out of 6061 aluminium. They combine to make a lightweight, rigid backbone for precise steering and effortless acceleration, while our Agile Ride Geometry ensures a ride that's stable when you need it and inspiringly nimble when you want it. New for 2019, our design team has also reworked the rack and mudguard mounting points. With internally routed cables for cleaner gear shifts and reduced maintenance, it's all part of the attention to detail that makes the Aim SL Allroad a compelling blend of comfort, liveliness and practicality.
