50cm, 47cm

Product description:

Cube Attain Pro Disc white´n´red 2019

Comfort, lively handling and the reassurance of safe, powerful braking in any weather conditions - that's the promise of our understated, affordable and versatile Attain Pro Disc. From the cable-actuated Tektro disc brakes to the 9 speed Shimano Sora transmission, it takes its inspiration from the race bikes used by the pros but adds a dose of real world comfort and practicality. And that's important, because it means you don't need to be a racer to get the best out of it. A frame that blends comfort with safe, predictable handling means that every ride will be a pleasure, whether it's a short training blast or a longer weekend route with your riding buddies. It's all the bike you'll ever need to get the best out of your ride time.

The secret to the Attain Pro's sublimely comfortable, safe handling is the combination of our Road Comfort Geometry and deliberately slender seat stays, which do a great job of filtering out road shocks to increase rider comfort. You've got to ride it to believe it. We've even specced a carbon fork, whose vibration-absorbing blades complement the rear end's performance to reduce rider fatigue, even on longer rides. The Superlite 6061 aluminium chassis is built using our Smooth Welding technique for flawless, organic tube joints. It also features a tapered head tube, mechanically formed down tube and PressFit bottom bracket for exceptional pedalling efficiency and safe, predictable steering. Internal cable routing adds to the sleek looks and reduces maintenance, ensuring your gear shifts stay crisp and clean. The only thing missing? That'd be you.

- **frame** Aluminium 6061 T6 Superlite, Double Butted, Smooth Welded, 3D Flat Mount Disc Brake Dropouts, Road Comfort Geometry, Fender Option, 12x142mm
