Cube Cross Hybrid Pro 500 iridium ´n ´green 2019

Sometimes you just want a bike that'll do it all, with no fuss. That's what we had in mind when we built the Cross Hybrid Pro. It's a versatile Bosch e-bike that's confidence-inspiring to ride in the urban jungle and simply inspiring in the open countryside. Use it for work, for pleasure, for family, for fun. The high quality, state of the art frame represents the ultimate in riding safety, having passed all our stringent in-house test procedures. Equipped with Shimano's wide-ranging and smooth-shifting 10 speed Deore gears, a Suntour suspension fork with lockout for added comfort and powerful hydraulic disc brakes for safe stopping in any weather, it's the everyday two-wheeled companion to help you expand your horizons.

With the confidence-inspiring handling that you'd expect from CUBE, it's easy to take the Cross Hybrid Pro's frame for granted. But there are no shortcuts here, and everything's the way it is for a reason. For example, the immensely strong gravity cast housing for the battery and motor contributes to the frame's impressive efficiency as well as reducing weight as much as possible. Just as important, it positions the Bosch drive unit and battery in exactly the right position for the best possible handling and performance - and you can even charge the battery without removing it from the frame. Whether you opt for the trapeze frame or classic men's version, you'll have the benefit of internal cable routing for clean gear shifts and greatly reduced maintenance. There are even built-in rack and kickstand mounts for added versatility. We thought of everything, so all you have to do is jump on and ride.
