Entry 58 cm, 50cm, Easy Entry 42 cm

Antrieb: Bosch
Frame: Trekking & Urban

Product description:

Cube Town Sport Hybrid Pro 500 blue´n´black 2019

You may not regard yourself as a pro, in cycling terms. But the Town Sport Hybrid Pro takes its job - as an easy-to-live-with, safe and dependable urban Bosch e-bike - very seriously. That's why we equipped it with Shimano's wide-ranging Deore 10 speed transmission. With easy shifts and an extraordinarily broad gear range, there's no hill too steep for you, the Town Sport Hybrid Pro and its powerful Bosch Active Plus drive unit. Strong and dependable Shimano hydraulic disc brakes provide safe, assured stopping in any weather conditions and the Suntour suspension fork - with lockout - takes the sting out of potholed city streets. We even fitted an adjustable stem and suspension seatpost, so you can be assured of the best fit and a comfortable ride. And the integrated luggage carrier matches the frame's sleek looks while providing a strong, stable and secure platform for you to carry everything you need with you. That's why it's a Pro: we sweated the details, so you don't have to.

Sometimes the simplest-looking solutions have had the most thought put into them. That's pretty much the way it is with the Town Sport Hybrid Pro's frame, which hides all our Bosch e-bike design expertise in a simple, elegant structure that's as easy to live with as it is good to look at. Details like the gravity cast motor housing and oversized down tube combine to create a stiff, strong frame that's more than robust enough to stand up to all our in-house testing, as well as providing you with a great ride. We positioned the battery in the ideal place for ease of use and convenient charging. Combined with our Comfort Ride Geometry, its central position ensures the best and safest possible handling. Internally routed cables keep your gear shifts precise with the absolute minimum of maintenance, and our Smooth Welding process complements the frame's great looks by giving the

impression that one tube flows into the next. As our engineers are fond of saying, the devil is in the detail.

- **frame** Aluminium Superlite, Comfort Ride Geometry, Premium Comfort And Safety, Integrated Carrier 2.0, Double Butted
- **colour** blue ´n´ black
- **size** 50, 54, 58, 62; Trapeze: 46, 50, 54; Easy Entry: 42, 46, 50, 54, 58
